-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claims 1-6 and 21 are objected to because of the following informalities: Claims 1-6 and 21 are drawn to a method claim, which does not set out the steps in proper form. The steps of the method should be set out in gerundial phrases. Appropriate correction is required
2. Claims 7-20 and 22 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 7, an apparatus claim, is dependent upon claim 1, a method claim.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.
4. Claims 7-20 and 22 are rejected under 35 U.S.C. 101 because they are not drawn to a single class of statutory subject matter. Claim 7 and its dependent claims contain limitations drawn to a method and an apparatus.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 3671

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 7-20 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 7 and its dependent claims were apparatus claims, which have been amended to incorporate method claim 1. This results in an improper hybrid method and apparatus claim, which is indefinite since it is unclear whether Applicant is trying to claim a method of structure. Therefore, these claims will not be further treated on the merits.

Also, claim 7 includes the phrase "in particular of hydraulic excavators." This phrase causes the scope of the claim to be indefinite.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1-6 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Tordenmalm et al. 4,896,582.

Tordenmalm et al. discloses a method for attenuating the motion of a hydraulic cylinder as claimed. (See Col. 4, lines 4-53)

Art Unit: 3671

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
